CHAPTER – II

MORE ABOUT THE WRITTEN TEST

1. SYLLABUS

The question papers of the Common Entrance Test will be mostly based on the First and Second PUC syllabi prescribed by the Department of Pre-University Education of Karnataka State.

2. DURATION, QUESTION PAPER AND OMR ANSWER SHEETS

This year, the Common Entrance Test will be held **only ONE DAY on 9th of May 2007** in three different sessions for four subjects i.e., **Physics and Chemistry in a combined paper** in the First session for **120 marks** (60 each for Physics and Chemistry) with **150 minutes duration** between **10.00 a.m. and 12.30 p.m.**, **Mathematics** in the Second session for **60 marks** with **80 minutes duration** between **2.00 p.m. and 3.20 p.m.** and **Biology** in the Third session for **60 marks** with **80 minutes duration** between **4.00 p.m. and 5.20 p.m.** **This year, the Combined question paper of Physics and Chemistry subjects will have 120 questions. Out of which, the first 60 questions i.e., from question number 1 to 60 will be from Physics and the next 60 questions i.e., from question number 61 to 120 will be from Chemistry. Further, the candidates will be required to mark their answers for Physics and Chemistry subjects on a common OMR answer sheet. However, Mathematics and Biology subjects will have separate question papers and separate OMR answer sheets.**

Each question paper will be of **objective type**. The question paper in each subject will be in **16 different versions** and each question will have **four different options**. Each question will carry **ONE mark**. The candidate is expected to attempt all the questions, in order to obtain maximum marks. In other words, **there is no choice among questions. THERE WILL BE NO NEGATIVE EVALUATION WITH REGARD TO WRONG ANSWERS AND MARKS WILL NOT BE AWARDED IN RESPECT OF MULTIPLE ANSWERS.** The version code of the question paper would have been boldly printed on facing sheet of the question paper. The version codes used in each paper will be from **A - 1 to A - 4, B - 1 to B - 4, C - 1 to C - 4 and D - 1 to D - 4**. The version code of the question papers given to a student may be different OR may be the same for different sessions.

COMPULSORY : In all the three sessions, initial TEN minutes will be given for the candidates to write / shade the particulars on the top portion of the OMR answer sheets such as Name, CET Number, Version Code and Serial number of the question booklet in the boxes provided. The candidates who are appearing for 2nd PUC / 12th Standard examination during Annual 2007 should write their Q. E. Register Number in the box provided on the top portion of the OMR answer sheet. **The candidates who do not write / shade the correct CET Number and Version Code on the top portion of the OMR answer sheets will not be assigned any rank.**

The candidates will have to mark correct options on the **Optical Mark Reader (OMR) sheet**, which will be supplied at the beginning of each session of the test. **Among the answers provided against a question, only one answer will be correct. The candidate should mark the correct answer by completely shading only one circle against a question number, using blue or black ink ball point pen.** Specimens of the OMR answer sheets are given in Pages - 29 & 30 of the brochure. More details about precautions to be taken while filling the particulars on OMR answer sheets is given at Page 31.

The OMR answer sheet comprises of two sheets. The top sheet will be used for the purpose of marking correct answers and later scanning & evaluation and the bottom sheet will be returned to the candidates after completion of each session of the test. **The bottom sheet is coated with a special kind of chemical which acts as Carbon. When the candidate fills the circles on the top sheet, the pressure on the bottom sheet will automatically create a replica of the top sheet.**

This year, all the candidates are required to compulsorily affix their LEFT HAND THUMB IMPRESSION in the space provided on the bottom portion of the OMR answer sheet (top sheet) with the ink-pad provided by the room Invigilator, after completion of each session of the test. However, they need not affix their thumb impression on the replica (bottom sheet) of the OMR answer sheet. Thereafter, the invigilators will detach the bottom sheet from the top sheet at the perforations and hand over the bottom sheet replica to the candidates and candidates are allowed to carry the same with them. The top sheet will be retained by the invigilator for returning the same to the Deputy Chief Superintendent of the exam center and in turn to the CET Cell.

NOTE : The OMR answer sheets in respect of all the candidates who have affixed their left hand thumb impression will only be scanned and the results in respect of such candidates will be published. The OMR answer sheets in respect of candidates who have not affixed their left hand thumb impression, for any reason, will not be scanned. Also, the results in respect of such candidates will not be published.

Optical Mark Reader sheets as Answer Sheets

A model of the Optical Mark Reader (OMR) sheets that will be used for marking the answers by the candidates are given at Page - 29 & 30. The need for the replica has compelled us to design OMR sheet in such a way that all the information and the answers are marked only on one side. The top portion of the sheet is meant for furnishing the particulars about the candidates such as the Name, CET Number, Version code and serial number of the question booklet and Q. E. Register number. The bottom portion is meant for marking the answers, affixing the signature of the room Invigilator & candidates and also for affixing the Left Hand Thumb Impression of the candidate. The space meant for the subject would have been pre-marked. The square blocks in each item should be filled by the candidate in capital letters and numbers. The circles corresponding to the letters or numbers are meant to be completely shaded using blue or black ink ball point pen only.

Why Ball Point Pen ?

Remember, we are allowing the candidates to carry home a replica or facsimile of the OMR answer sheet and the OMR answer paper comes in a set of two sheets. When you shade the top sheet, the pressure will create a dark mark on the bottom sheet on the corresponding circle. If a pen with a nib is used, the pressure on the top sheet will not be sufficient to activate the chemical on the bottom sheet. On the other hand, a ball point pen exerts sufficient pressure to convert the bottom sheet chemical into a dark spot. That is why we want you to use a blue / black ink ball point pen only.

3. SPECIMEN OF THE OMR ANSWER SHEET (PHYSICS & CHEMISTRY)

SPECIMEN OF THE OMR ANSWER SHEET (MATHEMATICS / BIOLOGY)

Important precautions to be taken while writing / shading Top portion of OMR answer sheet

The initial TEN minutes will be given to a candidate, for writing / shading the particulars on the top portion of the OMR answer sheet, wherein the candidates are required to write their Name within the boxes, write their CET Number in the boxes and shade the respective circles, write the Question booklet version code in the boxes and shade the respective circle in the required manner. The candidates are also required to write the Question booklet serial number and the Register number of 2nd PUC / 12th standard within the boxes (in case if the candidate is appearing for Annual examinations during 2007). Of the five items, entries pertaining to 'Name', 'CET Number' and 'Question booklet Version code' are very crucial ones. **Therefore, candidates are advised to take extra precaution while writing and shading these three items accurately on the top portion of the OMR answer sheet.**

Please study the specimen OMR answer sheets given at Page - 29 & 30 and familiarise yourself. Take four to five photocopies of the specimen OMR sheets and practice on them at home. By doing so, you will be very accurate in writing and shading the particulars such as Name, CET Number, Question booklet version code, etc., in the required manner on the Original OMR answer sheets, during actual conduct of the test.

Important precautions to be taken while shading answers on bottom portion of OMR Answer sheet

After the initial TEN minutes, 140 minutes (for Physics & Chemistry) and 70 minutes (for Mathematics & Biology) will be given to a candidate for shading the answers on the bottom portion of the OMR answer sheet. On the bottom portion, there will be 120 rows corresponding to 120 questions for Physics & Chemistry subjects and 60 rows corresponding to 60 questions for Mathematics & Biology subjects. Against each question number, four circles will be provided corresponding to four options of the question paper. The candidates are required to shade only one circle corresponding to the correct answer. **The scanner is so sensitive to black and blue ink shades that even a slight residual ink mark or an unintended ink dot within a circle on the OMR answer sheet will be taken by it, as filled / shaded, at the time of scanning.** Consequently, the candidate may lose marks. Therefore, please do not make any stray pen marks on the OMR answer sheets. As the scoring done by the scanner and the computer in tandem is final, a plea for erasing or neglecting the ink mark on a circle cannot be entertained. **Therefore, candidates are advised to take extra precaution while shading the circles on the bottom portion.**

THINK BEFORE YOU INK !

Once you darken a circle, there is no way to erase or to remove it. That way, your decision about a correct answer will be final. The invigilator will not permit you to use marker, white fluid or any other device to hide the shading already done and you will not be supplied with one more set of OMR sheet. If you spoil a sheet in your attempt to rub off the shading done on a circle, you may ruin your opportunities. If two circles are shaded in a row and even if one of the circles is partially rubbed off, the scanner will take it as a multiple attempt. Therefore, think twice before you shade a circle with ink. Darken only one circle for each question as shown against the CORRECT METHOD.

Instructions for preservation of replica of 'CET 2007' OMR answer sheets

The candidates should invariably preserve their 'CET 2007' OMR answer sheet replicas of all the subjects for a minimum period of one year from the date of obtaining the admission order.

4. DETERMINATION OF MERIT AND PUBLICATION OF MERIT LISTS

(A) Determination of Merit :

The merit of the candidates who appear for the Common Entrance Test – 2007 will be determined as follows :

- (1) In the case of **Medical and Dental Courses**, the merit will be determined only on the basis of marks obtained by candidates in Physics, Chemistry and Biology subjects taken together in the Common Entrance Test – 2007.
- (2) In the case of **Indian System of Medicine and Homoeopathy Courses**, the merit will be determined on the basis of marks obtained by candidates in Physics, Chemistry & Biology subjects in Common Entrance Test – 2007 and the marks obtained by candidates in Physics, Chemistry & Biology subjects in the Qualifying Examination, taken in equal proportions.
- (3) In the case of **Engineering and Technology courses**, the merit will be determined on the basis of marks obtained by candidates in Physics, Chemistry & Mathematics subjects in Common Entrance Test – 2007 and the marks obtained by candidates in Physics, Chemistry & Mathematics subjects in the Qualifying Examination, taken in equal proportions.

Provided that where the merit of two or more candidates is the same, the interse merit shall be determined with reference to the marks obtained in the Common Entrance Test in Biology in the case of Medical / Dental / Indian Systems of Medicine and Homoeopathy courses and in Mathematics in the case of Engineering / Technology courses and where the marks obtained in such cases are equal then the interse merit shall be determined on the basis of the marks obtained in Chemistry in the case of Medical / Dental / Indian Systems of Medicine and Homoeopathy courses and in Physics in the case of Engineering / Technology courses and where the marks obtained are equal again the interse merit shall be determined on the basis of the marks obtained in the respective subjects in the Qualifying examination as stipulated above and where marks obtained are equal again, the interse merit shall be determined on the basis of the age of the candidate, wherein the elder candidate will be considered before the younger.

- (4) In the case of **Architecture Course**, the merit will be determined on the basis of marks obtained by candidates in the qualifying examination in all subjects and the marks obtained in NATA, taken in equal proportions.

Provided that where the merit of two or more candidates is same, the interse merit shall be determined with reference to the marks obtained in NATA, where marks obtained in NATA are equal, then the interse merit shall be determined on the basis of marks obtained in Mathematics in the qualifying examination and where marks obtained in Mathematics are equal, the interse merit shall be determined on the basis of the age of the candidate, wherein the elder candidate will be considered before the younger.

NOTE : If everything as specified in the provisions to sub-clauses referred to above from (1), (2), (3) and (4) are equal, then the interse merit will be determined by draw of lots.

The determination of interse merit as detailed above for selection of Government seats will be the basis for the merit list of candidates claiming benefit of reservation under Admission Rules i. e., Item 8 of Chapter – I of the brochure.

(B) Publication of merit lists :

After the completion of the entrance test, the KEY ANSWERS will be published on **15-05-2007** on the **CET website : <http://kar.nic.in/cet>**. The candidates / parents / teachers can file their objections, if any, addressed to the “**Special Officer, CET Cell, Bangalore**” on or before **18-05-2007** either in person or only through SPEED POST, with regard to any of the published Key answers, along with all supporting documents / justifications. The objections received by the CET Cell will be placed before an **Expert Committee**, whose decision will be final for determination of the right key answers. The Key answers approved by the Expert Committee will be applied during evaluation for determination of merit order.

As per the merit determined by the CET Cell, the Medical, ISMH, Engineering and Architecture ranks will be assigned to the eligible candidates. Separate result sheets showing the Medical, ISMH, Engineering and Architecture ranks will be published on **25-05-2007** in all the ‘CET 2007’ exam centres and the same will also be made available on CET Website **<http://kar.nic.in/cet>**. Separate merit lists in respect of the wards of Jammu & Kashmiri migrants for the respective courses will also be prepared and published on the CET Website. The correct KEY ANSWERS and the list of candidates whose results have been with-held and the reasons for with-holding the results will also be published along with the results.

Result sheets will not be displayed in the CET Cell premises.

Candidates who have any objections in respect of any of the entries or problems in the result sheets, such as discrepancy / changes in the Q. E. marks, version code, NATA scores etc., **except the marks secured in the Common Entrance Test**, can submit their objections on or before **26-05-2007** and results in respect of such candidates will be published on **28-05-2007**. (See box item given below for details about intermediary ranks / Spot ranks i.e., ranks ending with G55, G44, G33 etc.)

NOTE : Candidates whose results will be withheld for want of qualifying examination marks should submit a photocopy of their Q. E. marks card either in person or through ‘Speed Post’ to the CET Cell and the ranks in respect of such candidates will be published subsequently.

Request for re-totaling or revaluation of the OMR answer sheets will not be entertained, as the valuation and the subsequent scoring will be error free.

What does 'G 55' mean ?

After the declaration of the results, the candidates may get ranks assigned mainly for the following reasons :
1) For want of Q. E. marks, a candidate might have missed the rank. 2) A candidate might have marked the version code wrongly. 3) Q. E. marks may get varied due to revaluation or other wise, when corrected, a fresh ranking becomes necessary.

The CET computers are programmed to assign new ranks or fresh ranks to the candidates falling within the above said categories without disturbing the rank numbers assigned to the candidates whose results were declared earlier. The computer program is such that it can assign ranks in between two integers without altering the previous rank numbers. Undoubtedly, you were assigned a rank after the declaration of the results. When a rank was assigned to you, rank 1234 and 1235 had been assigned to two other candidates. When it came to assigning a rank to you, the computer found that in the normal course, your rank would have been after the candidate with rank 1234 and before the candidate with rank 1235. Therefore, the computer had to place you between 1234 and 1235.

As already said, the computer is programmed to generate large number of ranks between two integers by dividing the space alphabetically from A to Z. Then each alphabet is subdivided from 1 to 99. Now, if a new rank is required to be assigned between two integer ranks, in the first instance, the computer assigns a division number as ‘G 55’ before the previous rank. If one more rank needs to be assigned between the rank 1234 and 1234 G 55, the computer assigns a rank as 1234 G 44. If one more rank is to be assigned between 1234 G 55 and 1235, then it assigns a rank as 1234 G 66.
